

# Fall of the Emperors

## Lore

The two Emperors of the Sea Big Mom and Kaido have teamed up to destroy the land of Wano and take over the world. Straw Hat Luffy is teaming up with Trafalgar Law and Eustass Kid to take them down.

## Core Gameplay

The game will consist of two battles going on at the same time. It will begin with Law and Kid in a fight with Big Mom, where the fight will be mostly one-on-one, but Law has the ability to switch positions with Kid at any point so there will basically be two options of how to fight Big Mom at any point. Once Big Mom has taken a certain amount of damage, the fight will switch to Luffy versus Kaido. After a certain amount of time, Kaido will turn into a dragon and blast Luffy with a fireball that will essentially kill him, and it will be left to return to the Big Mom versus Kid and Law fight. Then, Law and Kid will be able to use their stronger moves and take down Big Mom. After Big Mom has been defeated, we switch once more to fighting Kaido with Luffy where he enters his Gear 5 mode with full hearts again. Kaido will be fighting now in his dragon form the entire time but Luffy will be able to do crazier moves like lifting the floor to reflect his fireballs back at Kaido.
